Mr. Jeff Ciocco
U. S. Department of Energy
EM-45
Trevion II, Room 207
Washington, D. C. 20585

Dear Mr. Ciocco:

Please find enclosed your copy of the Final No Further Action Justification Document for Operable Unit No. 16 for the Rocky Flats Plant. A copy was sent via Federal Express directly to HAZWRAP on Friday, July 17, 1992 to expedite Headquarters review process. Comments must be received by RFO/ERD by COB July 24, 1992 in order to be incorporated by the IAG delivery date of July 30, 1992.

The nickel-carbonyl site is the only site requiring further action. This will be scoped with the regulators and can probably be handled by fate and transport and risk assessment modeling.

Questions should be directed to Robert H. Birk at (301) 966-5921.

Sincerely,

A handwritten signature in black ink, appearing to read "Frazer R. Lockhart", is written over the typed name.

Frazer R. Lockhart
Director
Environmental Restoration Division
